MUSONI RIBALTABILI E SCORREVOLI

Overturning and sliding bow roller

Musone ribaltabile in acciaio inox AISI 316 lucidato a specchio.

Stainless steel 316 overturning bow roller.

Cod. 229.11

Quando non si utilizza si ribalta nella posizione verso poppa in modo che non sporga oltre la prua della barca.

Cod. 229.11

It's enough to turn the release handgrip to overturn the bow roller so that chain don't ruin the fender of boat.

Musone in acc. inox.
Cod. 229.10

Stainless steel bow roller.
Cod. 229.10

Interamente prodotto con acciaio inox AISI 316 lucidato a specchio. In posizione chiusa (Fig. A) il musone rimane a filo della prua della barca. Quando si utilizza basta girare la manopola a scatto e portare il musone nella posizione anteriore in modo che la catena non rovini il parabordo del battello.

N.B. Brevettato come modello scorrevole, ribaltabile e girevole.

It is made of polished stainless steel Aisi 316.

The bow roller remain on the same line as the bow of boat in closed position (drawing A).

It's enough to turn the release handgrip to move the bow roller forward so that chain don't ruin the fender of boat.

N.B. Bow rollers patented as sliding, overturning and turning model.
